

# WHAT FACTORS AFFECT THE PRICE OF A PAINTING QUOTE?

## IS THE PAINTER INSURED?

**Many painters are not insured.**

Without insurance, the homeowner is liable for damage to their property or painter injury. Ask the painter to have their insurance company add you as additional insured to their policy and email you a certificate of insurance.

## APPLES-TO-APPLES BIDDING IS A MUST.

**Give every contractor the same specifications on which to bid your painting project.**

If the scope of work changes in the middle of getting quotes, have each contractor still bid on the original scope, and also have them price the new scope out as a separately priced option.

## GET ALL DETAILS IN WRITING.

**All work should be spelled out on the painting quote.**

Some painters are vague with the details written in their quote, which often leads to expensive add-ons in the middle of the project.

## CHECK ONLINE REVIEWS.

**The best references are online because they're unsolicited.**

Google "*Painter's Name* Reviews South Shore, MA." You're looking for **decent and recent** reviews.

Be sure to read the customer comments.
