

10 questions to ask your Interior House Painter:

1. Can you provide a **detailed and written quote** outlining all of the specifications and ALL prices for the project, including paint and labor?
2. Which **paint product** will you be using to paint my home? For example a painter should not just write: "Sherwin Williams Paint" but "[Sherwin Williams Duration Home](#)." This is because each brand of paint (such as Sherwin Williams and Benjamin Moore) has many grades of paint from cheap to expensive and [fair](#) to [excellent](#). You want to make sure you're getting a great paint grade, so the paint job lasts longer.
3. **How soon** can you get this project done? This is especially important if you are counting on your walls being painted by the time you are having party. At CertaPro Painters of the South Shore we usually have a crew standing by for "last minute" projects.
4. Is there a [designer on staff](#) to help me **choose colors** for my interior painting? At CertaPro Painters of the South Shore we have three in-home designers who help our customers choose interior and exterior colors, free of charge.
5. Do you provide **free large color samples** (8" x 8") so I don't have to choose the color from a small paint chip? We're so passionate about you getting the color right, we'll even provide free large color samples for do-it-yourselfers. Just [email us](#) and we'll mail them out to you within a week, free of charge.
6. Can you fix or [install mouldings](#) (baseboard, trim, window sills, crown), before you paint?
7. How is payment handled? Is there a **deposit** needed? Can I pay by **credit card**? Do you provide **financing** (i.e. no interest for 6 months)? Do you offer any [discounts](#)?
8. Do you offer a [written warranty](#) on the painting?
9. Can I get **references** or [read reviews](#) from some of your interior residential customers?
10. How soon can I [schedule a quote](#)?

If we can be of service, even if it's not about one of our painting projects, email Paige and Louis at Pnejame@certapro.com. We're happy to help.
