THE POWER TO KILL BACTERIA

IT'S TIME TO REDEFINE WHAT PAINT CAN DO.

FIRST-EVER EPA- REGISTERED

Sherwin-Williams Paint Shield® is the first-ever EPA-registered interior latex paint with the power to kill certain bacteria on painted surfaces within two hours of exposure.

KILLS 99.9% OF BACTERIA

Sherwin Williams Paint Shield® microbiodical paint kills 99.9% of Staph, E. coli, MRSA, VRE and Enterobacter aerogenes on painted surfaces within two hours of exposure.

CONTINUES TO KILL 90% OF BACTERIA FOR 4 YEARS

It continues to kill 90% of bacteria even after repeated contamination on painted surfaces for up to four years when the integrity of the surface is maintained.

AVAILABLE IN 550 COLORS. IDEAL FOR ALL FACILITIES

Ideal for healthcare facilities, athletic facilities, schools, day care centers, senior care communities, residential housing, hospital settings and cruise ships.
