SuperPaint[®]

with Sanitizing Technology Interior Latex

Cynthia Nolan

503-713-3279

Keep walls sanitized 24/7

Painted surfaces deliver ongoing antibacterial action, remaining effective in killing 90% of certain bacteria[†] even after repeated contamination.

Helps prevent the spread of certain bacteria on painted surfaces[†]

EPA-registered microbicidal paint that kills 99.9% of staph and E. coli on painted surfaces within 2 hours of exposure.

Paint high-touch spaces

Cleaning does not impact the bacterial reduction performance of the paint film.

Minimize downtime

Provides excellent coverage and is easy to apply, so you can turn units fast.

Available in 540 inspiring hues from the Living Well™ collection — including 11 beautifully balanced color palettes. Explore them all at s-w.com/living-well.
